

2024
ANNUAL REPORT

SynchronusTM
RISK MANAGEMENT

Letter from the Executive Director

2024 will close out as a successful year, following four years of challenges, changes, increased costs and higher than anticipated losses. While 2024 did not lack its share of excitement and trials, it did validate that the industry is stabilizing.

Some of the highlights for 2024 include enhanced risk management services. The single largest thing we can do to control costs for the pool is to control losses. The losses suffered by our members and policy purchasers not only increase the need for funding the self-insured retentions of the pools but also is having an increasing impact on rates and availability of coverage from the reinsurance markets. Synchronus has dedicated additional resources to provide more services, more grants and more hardware to assist in controlling claims. We are very excited about the advances in our website and risk management offerings and encourage you to view all of the services on our webpage, Synchronus.com.

2024 was also a continuation of the succession planning put into play starting in 2018. Synchronus has new faces and new energy to take the organization well into the future. Building on the basis of implementing advanced technologies, this energy will result in more services, more efficiency and ultimately reduced administrative costs to our members and policy purchasers. The succession plan saw the retirement of Rick Gehlhaar, who has led the claims department for 24 years, Rick's expertise has been filled by Tom Williams who has trained beside Rick for almost two years.

Planned retirements in early 2025 include Michelle Frye, our Finance Director, and me, Bill Gregory. Michelle has served the pools for 18 years and I have been fortunate enough to serve as your Executive Director for just over 19 years. This will be my last annual report.

As the team names change, the dynamics of the mission will not. I am confident that Synchronus will continue to thrive for our members and policy purchasers in a very challenging market. I would like to thank you for your support of the pools and wish you all the very best. You will be in good hands moving forward into 2025!

William Gregory

Report to our Pooling Participants

Letter to the Pool Participants, 2024

The future is ours.

Over the past 19 years, Bill Gregory and his Synchrons team have created a strong organization that provides excellent customer service to meet our insurance coverage and risk management needs. As the Board of Directors, we recognize these efforts and dedication to our mission.

Change is inevitable, and with the retirement of our Executive Director Bill Gregory and Finance Director Frye, the Board of Directors has a solid plan to move forward. Bill has worked hard to prepare the Board and organization for this new journey, and because of this we are confident the future will continue to be strong due to his dedication to the organization and our mission. The recruitment process has begun and it is our goal to announce a new leader for the organization by mid-spring.

We look forward to continue to meet your insurance coverages, along with enhanced risk management services, as we move into the future.

Well wishes to Bill and Michelle as they enter into the next chapter of their lives and thank you for your service to our industry.

Renée Rooker

President

Synchrons Risk Management

SYNCHROUS Risk Management: Overview

The rebranding of the Housing Authorities Risk Retention Pool (HARRP), the Affordable Housing Risk Pool (AHRP) and the ORWACA Agency Insurance Services, LLC to Synchronous Risk Management was released in 2020. The rebranding achieved the “blending” of all three entities into one name that is designed to capture the vast array of services available to affordable housing providers. Operations of all three entities will continue their full-service offerings under the shared Synchronous name and a new visual identity. HARRP, AHRP and the ORWACA Insurance Agency will continue to operate as the legal entities, so all financial transactions will remain delineated appropriately. Synchronous was intentionally formed to provide a unified point for risk management and specific coverages for affordable housing providers, be it public, LIHTC and/or non-profit.

Serving Oregon, Washington, California, and Nevada, Synchronous ensures rate stability through risk-sharing pools for public housing authorities and non-governmental owners of affordable housing properties. Pool participants have personal access to specialized expertise and care through legal counsel services and training, including an extensive resource library and Attorney Helpline. The combined service offering from Synchronous defines a sole focus on affordable housing, delivering greater value by providing higher limits and more coverage for less cost than traditional commercial insurers.

The Synchronous name exemplifies how we have worked together with you in providing better claims service and risk management solutions focused on serving affordable housing entities and owners. It represents a unified and professional banner under which we can all more easily engage and offer our unique range of services. Throughout our close collaboration during the process and following a unanimous vote of confidence from our Board of Directors, the Synchronous name now signifies everything we do. We hope you feel as strongly connected to it as we do.

Investments

Both the public entity and affordable housing pool each maintain its own separate investment accounts. Administered by Graystone Consulting, a business division of Morgan Stanley, the investment accounts maintain the surplus funds earning the maximum revenue from interest earnings. Income derived from these investments are used in determining future rates and acts as a “buffer” to absorb fluctuations in claims or insurance market conditions.

Investments are government backed securities as stipulated by the public entity investment laws of the States of Washington, Oregon, Nevada, and California. At the conclusion of 2024, the consolidated values of Synchronous investments was approximately \$32M.

Coverages

Both the public entities pool (HARRP) and the affordable housing pool (AHRP) provide many types of coverage for its pool participants. Each line of coverage is a manuscript coverage agreement and is a contract between the pool and the participating agency, which provides that any dispute in coverage terms will be settled under contract law.

Each pool provides the basic lines of coverage: property and general liability. Operations of public housing authorities vary greatly from those of affordable housing providers, in that public housing authorities have employees, vehicles, and housing choice voucher exposures. As each pool was built to provide coverage for specific risks of the insured, only general liability and property were developed for the affordable housing pool.

continues page 5

General Liability

Both pools provide general liability coverage, which protects members from premises liability exposures and third-party claims that may result in tort liability. Currently, the limits are \$2M per occurrence. Additional excess liability limits are optional and available for both pools.

Property

Both pools provide property replacement coverage. The program has a self-insured retention layer and reinsurance purchasing for a total of \$47M limit of coverage per occurrence, per participating pool member. The property coverage covers real and personal property of the pool participant and expediting expenses and business interruption coverage for losses sustained at administrative offices. Optional coverage is available for loss of rents, designed to continue cash flow in the event of loss of rents due to the repair of damaged units. Contents coverage is also provided and is based on valuations provided by the pool participant. Also included in the property coverage is equipment breakdown coverage, which extends the coverage to critical electrical and mechanical systems. The property program has a base deductible of \$5,000 per occurrence and the public entity pool, HARRP, has options for higher deductibles which link to discounts. The default property deductible for 2024 remained at \$5,000 per occurrence to continue to shift some of the loss costs away from the pools and to align with current industry standards of commercial property deductibles.

Fidelity

Both pools are protected from losses they might suffer because of employee dishonesty or the loss of monies and/or securities. The basic program limits are \$100,000 per occurrence for employee dishonesty and \$10,000 per occurrence for loss of monies and/or securities. Higher limits are available in denominations of \$100,000 per occurrence for an additional cost.

Public Officials Errors & Omissions Liability

Only available to the public entities pool, this coverage is intended to protect HARRP's member housing authorities, their employees, commissioners, and volunteers from liability arising from the official, non-arbitrary decisions they make on behalf of the authorities, subject to appropriate conditions. The coverage includes employment-related exposures such as allegations of wrongful termination, whistleblowing, retaliation and discrimination. The limits for this coverage are included in the general liability limits of \$2M per occurrence with \$2M aggregate. Each member is responsible for the greater of 10% of each loss or a minimum deductible of \$2,500.

Automobile Liability and Physical Damage

Only available to the public entities pool, this coverage protects the member housing authorities against risks associated with the ownership and use of automobiles. The limit is \$2M per occurrence. Due to multi-state regulations, auto coverage options are tailored to comply with each state's specific requirements.

Section 8 Liability

Only available to the public entities pool, HARRP provides liability coverage for member housing authorities associated with Section 8 vouchers. The Section 8 line of protection provides coverage for liabilities encountered with the administration of vouchers.

continues page 6

Reinsurance

Third party claims against pool participants and first party claims by pool participants for damages sustained at their properties comprise the largest expenditure for both of Synchronus' pools. In the past ten years, the cost to resolve claims against and by the pool participants has totaled just shy of \$820 million.

Reinsurance can be described as insurance for insurance companies. This relationship lets the commercial insurance company, or self-insured pools, retain more predictable, frequent, and smaller claims while transferring the less predictable, infrequent, and catastrophic claims to a myriad of other insurance providers to achieve the spread of cost of loss among many companies for an agreed upon premium.

Both the public entity pool and affordable housing risk pools have always been focused on providing an alternative to the volatile commercial markets. Stability of rates has been the primary focus of risk sharing pools.

During the past five years, the reinsurance markets have been profoundly impacted by a series of conditions never encountered. These conditions include global catastrophic loss expenses, retraction of capacity in reinsurance, exodus of reinsurers from underwriting certain lines of coverage and risk tolerance of the reinsurance industry. Highest on this list is the risk from wildfires. The threat of wildfires continues to be a driving factor in reinsurance procurement and will be for the foreseeable future. The pools have experienced over a 700% increase in the last five years in acquiring reinsurance to complete the \$47M property limit structure. Reinsurance restructuring proved to be an absolute necessity to obtain coverage and, with that, many new requirements were necessary to obtain the coverage, many of which substantially changed the way the risk-sharing pools functioned.

Even though the future of reinsurance acquisition continues to be volatile, the pools experienced moderation in the increases in costs for 2023 and further stabilization in 2024. The staff and Board of Directors continue to investigate options to effectively manage the cost, availability, and the new reality of reinsurers limiting coverage through exclusionary language.

By practicing effective risk management procedures, participants in both pools can assist in reducing claims and the cost of claims. In these unprecedented times, keeping the pools together is the most effective way of riding this storm out. Synchronus is here to assist your agency in any way we can.

Claims Management

Both the public entity and the affordable housing pool administer all claims processing in-house. Both pools contract with third-party claims adjusters, defense attorneys, and other specialists in the defense of a claim or reconstruction of assets. Both the frequency of claims and the amount of funds to adjust the claims have increased steadily for several years. Reconstruction costs due to material, manpower shortages, and code enhancement requirements have skyrocketed in the past three years, thus driving the increased costs.

As a member-owned and controlled organization, both pools attempt to achieve the highest level of satisfaction in the defense and management of claims. The pools recognize that they must exercise independent judgment to act in the best interest of the pools as a whole. Communication between the

pool participant and the pools is essential for the proper defense and resolution of claims. The management philosophy on claims management is to pay what is owed and to fight those claims that are questionable or unreasonable. Neither pool expends funds for nuisance claims and actively pursues coverage for its participants, rather than searching for loopholes to exclude coverage and deny a claim.

Risk Control Services

Accidental losses happen. There is no way around it. However, proactive intervention, rather than reactive treatment, is paramount to any business operation.

Synchronous provides a vast array of services and resources to assist the pool participants in controlling losses. Available to both the public entity pool and the affordable housing pool, these resources are continually evaluated and updated based on usage, relevancy, and effectiveness. Synchronous is continuously researching material that may assist our participants' internal risk control activities.

Synchronous offers a variety of reviewing services for purposes of risk control.

These services include:

- Wording and review of the insurance portion of agreements/contracts
- Policy comparisons
- Finding creative solutions on how to effectively service vulnerable populations
- Underwriting
- Coverage or risk control-related questions
- Addressing and discussing management challenges
- In-person address of safety concerns and identifying safety hazards at properties
- Consultation regarding major changes at your agency and upcoming projects/programs

Synchronous also offers a variety of tools and resources for purposes of risk control, including:

- Attorney Helpline
- Relevant loss control/safety/HR articles and links
- Sample policies and indemnification language
- Contractual risk transfer consultation
- On-demand, web-based, live and in-person training
- Fair housing training
- HSB water sensor program

Additionally, Synchronous provides live in-person or web-based training for topics like Claims 101, on-boarding, Contractual Risk Transfer, and more. Defensive driving classes are subsidized every 2-3 years for our pooling participants. Synchronous has produced training webinars that are available live or on-demand for topics ranging from Insurance 101, Accidents Happen, Now What? and Contractual Risk Transfer.

Our pooling participants can also arrange their own training sessions. Providing that the training is focused on reducing claims, Synchronous may assist in covering the costs. Synchronous provides grants to its pool participants on a first come, first served basis through its risk control grants.

SYNCHROUS: Staff

There are eleven full-time employees administering services and solutions for both pools. The same staff are under contract to provide the same level of expertise and service for the affordable housing pool and the insurance agency. This team is deeply committed to supporting the mission of our members and policyholders. All staff members bring a high level of expertise and broad experience with the issues typically faced by housing providers, risk pools and the commercial insurance industry.

As with most small offices, the staff relies heavily on cross training to ensure smooth transitions and uninterrupted service to its members and policyholders. Staff members have over 100 years of combined experience and take great pride in serving all pooling participants.

**William (Bill) Gregory,
Executive Director**

Overall management, regulatory compliance, risk control issues, compliments, complaints, suggestions, coverage issues, board relations, human resources

**Pat Saldana,
Claims Specialist**

New and existing claims, claim status and resolution issues, litigation issues

PUBLIC ENTITY POOL

Mission Statement: HARRP

The mission of the Housing Authorities Risk Retention Pool (HARRP) is to provide needed insurance benefits for its Public Housing Agency members on a consistent basis at stable, affordable rates.

HARRP WILL STRIVE TO:

- Provide Member Public Housing Agencies with the broadest form of insurance coverages possible while maintaining strong, sound financial business practices.
- Take a leadership role in meeting members' needs to control risk and provide high quality risk management services.
- Encourage member participation by keeping them informed of HARRP activities through regular newsletters and meetings and by soliciting feedback on HARRP operations.
- Provide prompt, courteous service to its members.
- Increase the membership of Public Housing Agencies seeking stable, affordable insurance coverage who are supportive of HARRP services and management and who meet HARRP underwriting criteria.

PUBLIC ENTITY POOL: Overview

The public entity risk pool, known and operating as the Housing Authorities Risk Retention Pool (HARRP), was formed in 1987 due to the commercial insurance market abandoning public sector entities. In response, HARRP was formed for the purpose of operating and maintaining, for participating public housing authorities, a cooperative program of risk management and indemnification and financial protection against risks of loss.

Obligations for membership into the public entities pool provide stability to the program that serves all 82 members. Each participating agency agrees to remain in HARRP for a period of not less than three (3) years beginning on the date upon which the coverage terms first become effective. A participating agency may terminate its participation in HARRP at any time after such three-year period has expired upon giving 90 days' prior written notice to termination of participation and providing the effective date of termination. Once participation in HARRP is terminated, the participating agency cannot re-apply for coverage for a period of three (3) years from the date of withdrawal and must conform to the underwriting criteria that is currently in place at the time of application. The participating agency may not be "double covered" with the coverage afforded by the pool and any other insurance. If double covered, HARRP will be the secondary payor to the other insurer. HARRP also requires each member to be dedicated to risk management principles, including risk control activities designed to minimize the impact to the pool.

There are numerous benefits for public housing authorities to become a member of HARRP. Below is a partial list:

- **Member Focused and Responsive:** The Board of Directors consists of PHA Executive Directors who understand how their decisions will affect members.

continues page 10

- **Cost Effective:** As a public entity, HARRP has no profit load, no taxes, no state insurance commissioner fees and pays no commissions. All this controls the costs of providing specific coverage for members.
- **Tailored Coverage:** HARRP utilizes a manuscript coverage agreement, which simply means that the Board of Directors controls what is and what is not covered. This provides unparalleled flexibility to quickly adapt to changing conditions. Any coverage adjustments can be done internally and does not need to be validated by state insurance officials. The coverages are designed to encompass day to day operational risks encountered by members, not an off the rack insurance product that covers exposures that are not present in PHA operations.
- **Long Term Rate Stability:** Pooling spreads the cost of risk among the members, thus stabilizing costs. There is approximately \$26.6M in retained surplus. These funds can be used to absorb fluctuations in market pressures or adverse claims experience.
- **Equity:** Each member of the pool is an owner of the pool; therefore, each owner has equity. If HARRP were to cease operations at the end of the year, each current member would be entitled to pro-rated accrued equity, or approximately \$26.6M. Withdrawing members lose all equity that they have accumulated. New members start at zero equity and build as they participate. The retained surplus could also be returned to current members as a dividend, which has been done in the past, but it has always been the will of the Board of Directors to retain that equity for rate stability. Equity return would be based on the members' contributions to the pool versus the claims paid for the period in which a member was active and the date of dissolution of the pool.
- **HUD Waiver:** HUD's regulation 24 CFR 965 governs public housing insurance requirements. Being a member of HARRP fulfills the requirements and eliminates the need for the PHA to participate in competitive bidding.
- **Risk Control, Training, Claims Administration:** HARRP offers a wide array of services and aggressive claims resolution. This includes online training, in-person staff training, attorney helpline and HARRP provided speakers on specific subjects such as Fair Housing. The claims philosophy at HARRP is to pay claims that are justified and fight those claims that are not.
- **Non-Assessable:** The pool cannot assess members, in the event of dissolution of the pool, for future liabilities. Many pools that experience excessive claims assess their members for the shortfall of funds needed to pay the claims. These assessments can sometimes be decades after the claims have occurred and many times assessments are levied against former members that no longer participate in the pool.
- **Subsidiaries:** The affordable housing risk pool, known and operating as the Affordable Housing Risk Pool, LLC (AHRP) with its subsidiary, the ORWACA Agency Insurance Services, LLC, rounds out HARRP's mission of being a one-stop shop for commercial insurance products for affordable housing providers. These subsidiaries are designed to bring all the needed insurance products under one roof, be it through self-insured pooling or on the open, traditional insurance marketplace.

PUBLIC ENTITY POOL: Board of Directors

The public entity pool Board of Directors is comprised of nine members, three representing the Association of Washington Housing Authorities, three representing the Housing Authorities of Oregon, and three representing the California Association of Housing Authorities. The Directors are subdivided into three classes, each class with a staggered term of three years. Annually, one-third of the Board is elected at separate meetings of each Association. The Board of Directors meet quarterly and is responsible for establishing policy, rate setting, claims, risk management and other administrative functions. Ad hoc committees are formed by the Board when necessary to handle specific issues, projects or urgent concerns between regularly scheduled Board of Directors' Meetings.

The public entities pool Board of Directors are as follows:

Mission Statement: AHRP

The Affordable Housing Risk Pool (AHRP) mission is to provide insurance, risk management and exceptional service, specifically tailored for the affordable housing market and instrumentalities of public housing organizations.

AFFORDABLE HOUSING POOL: Overview

The affordable housing pool, known as, and continuing to operate as the Affordable Housing Risk Pool (AHRP), is a manager managed limited liability company which filed Articles of Incorporation on December 21, 2010. AHRP is wholly owned by the Housing Authorities Risk Retention Pool (HARRP). AHRP was born from the need for an alternative to traditional insurance for affordable housing providers, specifically tax credit partnerships and non-profit housing. The intent was to replicate the affordable housing pool, as close as possible, to the successful formula of the public entities pool, HARRP. The affordable housing pool wrote its first policy on March 31, 2011.

AHRP is a taxable entity and requires reliance on insurance markets for its operations. The largest hurdle facing AHRP is the requirement of lenders' adherence to the AM Best rating. This requires AHRP to "front" the program. This means that AHRP is purchasing the AM Best rating to satisfy the lenders. The structure of AHRP is much more complicated than its parent, HARRP, but in essence AHRP is an insured program with AHRP reinsuring the "front" for the first \$1M of all losses. All losses above \$1M are purchased in a traditional method from commercial insurance markets.

AHRP's first year of policy issuance was for affiliated entities/instrumentalities of the HARRP members. In 2012, AHRP opened up to qualified affordable housing entities with no affiliation to public housing authorities. Many of these early policies were written as a group policy. Participants in AHRP have no ownership in the pool and are not classified as members. The AHRP clients are simply buying an insurance policy. Like HARRP, AHRP new submissions are thoroughly underwritten to assure proper fit and adherence to HARRP and AHRP philosophies on risk management.

There are numerous benefits for participating in AHRP. Below is a partial list.

- **Focused and Responsive:** The Board of Directors consists of seven PHA Executive Directors and two Policyholder representatives that have no affiliation with public housing authorities. Each board member understands how their decisions will affect the pool and the policy purchasers.
- **Cost Effective:** AHRP is not required to file with any of the state insurance departments and pay filing fees. Additionally, the reinsurance purchasing is group based, which reduces the costs of coverage. Another benefit is the wide footprint of AHRP's risks, 432,000 square miles. AHRP has no profit load and no commissions paid. All this controls the costs while providing specific coverage for policy purchasers.
- **Stability:** The insurance industry has experienced a prolonged hard market, meaning it is an insurers market. The global coverage capacity has significantly retracted over the past four years. As such, costs have exploded and obtaining coverage has continued to be difficult. This market has impacted all insurance markets and AHRP has had to place rate increases in order to purchase reinsurance. What AHRP has not done is cancel or non-renew policies for its policyholders. This has become a common occurrence in the traditional commercial insurance marketplace. AHRP provides coverage stability in a tumultuous insurance environment, and at some point, will once again provide rate stability when the reinsurance markets stabilize.

■ **Tailored Coverage:** AHRP utilizes a manuscripted coverage agreement, which means that the Board of Directors controls what is and what is not covered. This provides unparalleled flexibility to quickly adapt to changing conditions. Any coverage adjustments can be done internally and do not need to be validated by state insurance officials. The coverage is designed to encompass day to day operational risks encountered by policyholders, not an off the rack insurance product that covers exposures that are not present in housing operations.

■ **Risk Control, Training, Claims Administration:** AHRP offers a wide array of services and aggressive claims resolution. This includes online training, in-person staff training, loss control grants, attorney helpline and AHRP provided speakers on specific subjects such as Fair Housing. The philosophy at AHRP is to pay claims that are justified and fight those claims that are not.

■ **Non-Assessable:** The pool cannot assess members, in the event of dissolution of the pool, for future liabilities. Many pools that experience excessive claims assess their members for the shortfall of funds needed to pay the claims. These assessments can sometimes be decades after the claims had occurred and many times assessments are levied against former members that no longer participate in the pool.

■ **Subsidiaries:** The ORWACA Agency Insurance Services, LLC is a subsidiary of AHRP. ORWACA was converted from a corporation to an LLC under AHRP in 2013 in response to concerns voiced by the Washington State Auditor’s Office. ORWACA is intended to give both HARRP members and AHRP policyholders a one stop shop for their insurance needs.

AFFORDABLE HOUSING: Board of Directors

The affordable housing risk pool incorporates a nine-member Board of Directors. Seven directors are designated as Member Affiliated Directors, and they are elected by the public entity pool Board of Directors. Two directors are designated as Policyholder Affiliated Directors, and they are appointed by the Member Affiliated Directors.

The directors are subdivided into three classes, each class with a staggered term of three years. One third of the Board is elected (or appointed) annually, usually in late March or early April. The Board of Directors meets quarterly and is responsible for establishing policy, rate setting, reinsurance and excess insurance treaties, actuarial analysis, risk management, and overseeing the activities of the contract administrative services.

The affordable housing risk pool directors are:

Renée Rooker

Executive Director,
Walla Walla Housing Authority
Walla Walla, WA
AHRP President
(Term ends 2025)

Ken Kugler

Executive Director,
Housing Authority of the
County of Tulare • Visalia, CA
AHRP Vice President
(Term Ends 2026)

Duane Leonard

Executive Director,

INSURANCE AGENCY: Overview

The ORWACA Agency Insurance Services, LLC (agency) can assist with any insurance need that is outside the core scope of coverages provided by the public entity or affordable housing pool. The agency is a fully licensed commercial insurance agency, with the ability to access a multitude of commercial policies to achieve its clients' needs for professional executive risk insurance products and general property & casualty coverages. The agency also has access to bonding markets for unique situations when surety is required.

The following examples serve as a reference of the type of programs needing coverage and products frequently requested. Additional lines of coverage are normally accessible by the agency.

- **Homeless shelters & transitional housing programs**
- **Private non-profit operations & city/county funded operations**
- **Community mental health providers that include housing solutions**
- **Most service providers at your housing authority's properties**
- **Directors' and officers' insurance for independent non-profit boards related to housing**
- **Professional liability (E&O) and miscellaneous professions**
- **Flood and earthquake**
- **DIC – difference in conditions – broadens property forms**
- **Builder's risk – for property in the course of construction**
- **Policies for property and general liability for affiliates & partner non-profits**
- **Sexual misconduct and abuse**
- **Employment practices liability (monoline product policy)**
- **Bonding/surety, notary/bid & performance and miscellaneous bonds**
- **Fund raising or special event policies**
- **Lead based paint professional liability for housing inspectors**
- **Tenant discrimination**
- **Boiler & machinery/mechanical breakdown**
- **Underground storage tank liability & other pollution related coverage**

Dedicated to offering insurance services to both the public entity and affordable housing sector, the agency is designed to complement the risk pools in achieving the goal of being a one stop shop for insurance coverage specific to housing risks.

Report of Independent Auditors

The Board of Directors
Housing Authorities Risk Retention Pool

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Housing Authorities Risk Retention Pool (the Pool) as of and for the years ended December 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Pool's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Pool as of December 31, 2024 and 2023, and the respective changes in financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards (Government Auditing Standards)*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Pool and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Pool's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Pool's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Pool's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 19 through 21 and page 25, and the reconciliation of claims liabilities by type of coverage, the ten-year loss development information, the pension plan information, and notes to required supplementary information on pages 36 through 41 (collectively, the required supplementary information) be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

continues page 19

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Housing Authorities Risk Retention Pool's basic financial statements. The combining statement of net position and combining statement of revenues, expenses, and changes in net position (collectively, the supplementary information) are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2025 on our consideration of the Pool's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Housing Authorities Risk Retention Pools' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Housing Authorities Risk Retention Pool's internal control over financial reporting and compliance.

Portland, Oregon

Management's Discussion and Analysis

The Housing Authorities Risk Retention Pool (HARRP) management is pleased to offer this narrative overview and analysis of the financial activities for the fiscal year ended December 31, 2024. We encourage readers to consider the information presented here in conjunction with HARRP's financial statements and notes.

Financial Highlights

HARRP concluded 2024 with positive gains, these gains are a combination of positive claims results, implementing a minimum per square foot cost factor, and lower administration costs due to another positive adjustment of GASB 68-Pensions. This minimum per square foot more accurately reflects repairs costs and reduces subsidy for the increased costs of losses. This is representative of both pools. ORWACA continues to generate higher revenues due to the marketing and selling of commercial policies, primarily builders risk policies. This is due to continued increased activity of new construction of affordable housing throughout the west coast.

As such, HARRP had a net increase in net position of \$3,867,557 in 2024 compared to a net decrease in net decrease of \$792,214 in 2023. The claim expense for AHRP was better than anticipated, leaving AHRP with a net increase in net position of \$1,519,405 in 2024 compared to a net increase in net position of \$1,429,142 in 2023. ORWACA performed well again in 2024 due primarily to the increased sales of builders' risk policies for new development and rehabilitation projects and saw a net increase in net position of \$285,577 compared to a net increase in net position of \$234,876 in 2023. HARRP saw a net increase in its net position of \$2,062,575 in 2024 compared to a net decrease in its net position of \$2,456,232 in 2023.

AHRP and ORWACA posted an aggregate net increase in net position of \$1,804,982 in 2024 compared to an aggregate net increase in net position of \$1,664,019 in 2023.

General Program Highlights

HARRP was formed in 1987 as a response to the rapidly escalating costs and availability of public entity insurance. HARRP was formed to pool risks associated with operations of public housing authority agencies. HARRP is governed by a nine-member Board of Directors, elected by and representative of member housing authorities that participate in the HARRP program. The Board of Directors oversees operations, policy, claims, underwriting, risk management, and finances.

Claims administration, risk management, financial services, and underwriting are performed in-house. Claims adjusting, actuarial analysis, financial audits, and legal services are outsourced to firms specializing in pooling, habitational risks, employment law, and civil litigation.

continues page 20

AHRP launched in 2011, AHRP provides coverage for tax credit partnership and nonprofits providing affordable housing. AHRP acquired ORWACA in 2013 at the same time the corporate structure was changed from a corporation to a limited liability company in Oregon. ORWACA is dedicated to procurement of commercial insurance products for HARRP and AHRP. With two licensed insurance agents, ORWACA specializes in acquiring specialty coverage.

Financial Statement Overview

HARRP and its blended component units report their financial activities as an enterprise fund, utilizing full accrual. The annual financial report consists of the Statements of Net Position, Statements of Revenues, Expenses, and Changes in Net Position, and Statements of Cash Flows. This report also contains supplementary information in addition to the basic financial statements.

- The Statements of Net Position present information on the Pool's assets and deferred outflows of resources and liabilities and deferred inflows of resources, and net position. Increase or decrease in the net position from year to year is an indication of how effectively HARRP and AHRP are rating their programs to assure sufficient funding as well as the level of HARRP's internal administrative efficiency.
- The Statements of Revenues, Expenses, and Changes in Net Position present information showing total revenues versus total expenses and how the Pool's net position changed from year-end 2023 to year-end 2024. All revenues and expenses are reported on an accrual basis.

In the required supplementary information section of the audit report is the Reconciliation of Claims Liabilities by Type of Coverage, the Ten-Year Loss Development Information, and the Pension Plan Information. The Ten-Year Loss Development Information schedule for the most recent 10 years shows loss development which demonstrates whether the originally funded rate was adequate or inadequate to cover the cost of losses as the loss matures. These reports are submitted pursuant to GASB Statement 10, as amended by Statement 30 and GASB Statement 68.

In the supplementary information section of the audit report, the Combining Statement of Net Position and the Combining Statement of Revenues, Expenses, and Changes in Net Position, is presented by program. Hence, HARRP, AHRP, and ORWACA are presented separately. This allows specific identification of performance by each program.

Deferred inflows of resources	183,102	216,071	320,896
Total liabilities and deferred inflows of resources	<u>34,634,741</u>	<u>26,488,664</u>	<u>23,544,952</u>
NET POSITION			
Net investment in capital assets	-	-	1,233,844
Unrestricted	27,576,757	23,709,200	23,267,570
Total net position	<u>\$ 27,576,757</u>	<u>\$ 23,709,200</u>	<u>\$ 24,501,414</u>

Referral to the accompanying financial statements and the related notes for the financial statements is encouraged.

Assets and Deferred Outflows of Resources

Total assets and deferred outflows of resources increased \$12,013,634 from the previous year. This followed an increase in assets and deferred outflows of resources of \$2,151,498 in 2023.

At December 31, 2024, HARRP invested approximately \$31,959,785 in certificates of deposit, corporate bonds, obligations of the U.S. Government, U.S. Government agencies, and U.S. Government sponsored agencies, as stipulated by applicable State investment statutes. Income derived from these investments is used to offset program costs and accordingly reduces both HARRP's and AHRP's rates.

Capital Assets

At December 31, 2024, HARRP had \$0 in net investment in capital assets, net of accumulated depreciation due to the sales of its buildings in 2023.

Liabilities and Deferred Inflows of Resources

On December 31, 2024, total liabilities and deferred inflows of resources increased \$8,146,077 over the previous period. HARRP's liabilities are generally unearned member contributions (deferred revenue), claim reserves payable at a future date, reserves for incurred but not reported (IBNR) claims, accounts payable, accrued expenses, and pension liability.

Net position, ending	<u>\$ 27,576,757</u>	<u>\$ 23,709,200</u>	<u>\$ 24,501,414</u>

Referral to the accompanying financial statements and the related notes for the financial statements is encouraged.

Revenues

Members contribute funds to the pool allowing HARRP to manage its objective of self-insurance. The predominant source of revenue is member contributions. Each year, HARRP conducts an actuarial analysis to determine contribution levels, which are based on loss trends, exposure units, and other trending factors. Rates are ultimately adopted by the Board of Directors.

HARRP's revenues (exclusive of investment income) increased in 2024 due to changes in exposure units covered, minimum square foot valuations, and minor rate increases. AHRP's revenues (exclusive of investment income and commissions) increased due to growth in exposure units covered, and the same valuation as HARRP, as well as rate changes. AHRP began accepting new business from all low-income tax credit and nonprofit affordable housing providers on January 1, 2013. Previously, only those entities affiliated with a HARRP member were able to secure coverage through AHRP.

Expenses

HARRP and AHRP administration costs are comprised of administration and claim handling costs. In 2024, HARRP's administration and claim expenses increased by \$3,462,620, compared to an increase of \$6,871,805 in 2023. This is due primarily to the increased number of losses due to growth, additional costs of adjusting those claims, rising reinsurance rates, and administrative expenses increasing due to succession strategies. These increased costs were offset due to a favorable adjustment from the GASB 68 - Pensions calculation.

Debt Administration

Neither HARRP nor AHRP have any existing or pending long term debt. HARRP is positioned to finance bonds in the four states in which it operates to raise capital, if necessary. There are no plans to raise capital through capital contributions, bond financing, or other means. In the 35 years since inception, HARRP has not had to rely on debt financing to fund any portion of its operations.

Forecast of Facts or Conditions Affecting Results of Operations

HARRP benefits from its long-term existence as a risk pool. HARRP's cumulative surplus assures HARRP's solvency. HARRP, like most public entity pools, has suffered due to stringent investment guidelines to which the pool must adhere that limit investments to short-term government securities. Historically, investment income supplements the revenue generated by pool contributions and is a crucial factor in rate setting at the end of the year.

The industry trending prediction has property and casualty markets continuing to harden, which means the capacity in the insurance markets is decreasing. Insurance companies typically increase rates when capacity is low.

In 2011, HARRP obtained board and member approval to launch AHRP. The growth of AHRP has been steady throughout its 13-year history.

Financial Contact

his financial report is designed to provide a general overview of the finances of HARRP. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Executive Director, Housing Authorities Risk Retention Pool, 4660 NE 77th Avenue, Suite 310, Vancouver, WA 98662.

Notes to Financial Statements

Note 1 – Significant Accounting Policies

Nature of Operations

Housing Authorities Risk Retention Pool (HARRP) was established to serve affordable housing providers pursuant to specific statutes in Oregon, Washington, California, and Nevada for the purpose of operating property, general liability, automobile, fidelity, tenant discrimination, and public officials' errors and omissions coverage to participants.

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America.

Reporting Entity

The governmental reporting entity consists of HARRP, the primary government, and its blended component unit.

Component units are legally separate organizations for which the Board of Directors is financially accountable or other organizations whose nature and significant relationship with HARRP are such that exclusion would cause HARRP's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (i) either HARRP's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on HARRP. The basic financial statements include blended component units. The blended component units are legally separate entities, and are considered, in substance, part of HARRP's operations, and so data from these units is combined with data of the primary government.

statements and consists of two legally separate entities, Affordable Housing Risk Pool (AHRP) and ORWACA Agency Insurance Services, LLC (the Agency) (collectively, the Pool). The Agency is a member managed LLC owned by AHRP (100% ownership). AHRP began operations on March 31, 2011. AHRP is a 100% owned subsidiary of HARRP.

Governmental Accounting Standards Board (GASB) requires that the financial statements of AHRP and the Agency be blended into HARRP's financial statements. Separately issued financial statements for AHRP and the Agency may be obtained by contacting the Executive Director, HARRP, 4660 NE 77th Avenue, Suite 310, Vancouver, WA 98662.

Basis of Accounting

The Pool maintains its accounting records as a proprietary fund using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred. The Pool distinguishes operating revenues and expenses from non-operating items. Operating revenues and expenses are derived from providing services in connection with the Pool's ongoing operations. The primary operating revenue is contributions from member entities. Operating expenses include claims expenses and general and administrative expenses. All other revenue and expenses not meeting this definition are classified as nonoperating revenues and expenses. GASB is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The Pool has applied all applicable GASB pronouncements in the financial statements.

Use of Restricted and Unrestricted Resources

When both restricted and unrestricted resources are available for use, it is the Pool's policy to use restricted resources first, then unrestricted resources as they are needed.

Membership

HARRP was comprised of 82 member public housing authorities at December 31, 2024. HARRP has 82 members who participate in Crime, 82 members who participate in General Liability, 12 members who participate in Excess Liability, 81 members who participate in Errors & Omissions, 1 member who participates in Stand Alone Employment Practices Liability, and 80 members who participate in Property.

HARRP was comprised of 82-member public housing authorities at December 31, 2023. HARRP had 82 members who participated in Crime, 82 members who participated in General Liability, 12 members who participated in Excess Liability, 81 members who participated in Errors & Omissions, 1 member who participated in Stand Alone Employment Practices Liability, and 80 members who participated in Property.

AHRP's policyholders consist of nonprofit and low-income tax credit affordable housing providers affiliated with HARRP. AHRP provides policyholders property, general liability, and tenant discrimination insurance coverage. AHRP had 440 member policies issued and outstanding at December 31, 2024.

Under HARRP's Intergovernmental Cooperation Agreement, new members may be admitted by a majority vote of the Board of Directors.

Upon entry into HARRP, members may not voluntarily withdraw for a period of three years. Members must submit 30 days written notice prior to voluntary withdrawal. Members may be expelled by a majority vote of the HARRP Board of Directors. The effect of withdrawal does not terminate the responsibility of the member for any unpaid premiums.

Description of Programs

The Pool's Self Insurance Programs (Auto Liability, General Liability, Errors & Omissions, Property, and Employment Practices) were established for the purpose of operating and maintaining a self-insurance or group insurance program. Member contributions for coverage are to be used for the payment of, but not limited to, the following:

- Self-insured claim payments
- Reinsurance premiums
- Claims administration expenses
- Investigative costs
- Legal costs
- Internal administration service costs
- Audit costs
- Actuarial expenses
- Miscellaneous

The Board of Directors determines contribution requirements annually for the self-insurance programs adequate to fund for internal administration, projected losses, and excess insurance costs. Member deductibles, self-insured retention (SIR), reinsurance, and excess insurance for each program under HARRP are as follows:

<u>Auto Liability</u>	
Member Deductible	None
SIR Auto Physical Damage	Actual Cash Value
SIR Bodily Injury & Property Damage	\$2,000,000 per occurrence
<u>General Liability</u>	
Member Deductible	None
SIR	\$2,000,000 per occurrence
<u>Errors & Omissions</u>	
Member Deductible	10% co-share of claim per occurrence
SIR	\$2,000,000 per occurrence
<u>Property</u>	
Member Deductible	\$0 to \$25,000 per occurrence (varies)
SIR	\$2,000,000 per occurrence
Excess Property	\$2,000,001 to \$45,000,000
<u>Employment Practices</u>	
Member Deductible	10% co-share of claim per occurrence
SIR	\$2,000,000 per occurrence

Policyholder deductibles, SIR, reinsurance, and excess insurance for each program under AHRP are as follows:

<u>General Liability</u>	
Deductible	None
SIR	\$1,000,000 per occurrence
Reinsurance	\$1,000,000 per occurrence
<u>Property</u>	
Deductible	\$0 to \$10,000 per occurrence (varies)
SIR	\$1,000,000 per occurrence
Reinsurance	\$1,000,000 per occurrence
Excess	\$2,000,001 to \$45,000,000

Advertising

Advertising costs are expensed as incurred. Advertising expense was \$75,541 and \$62,827 for the years ended December 31, 2024 and 2023, respectively.

Cash and Cash Equivalents

The Pool considers all highly liquid investments with an original maturity of three months or less and money market mutual funds to be cash equivalents. The amount of the Pool's cash is covered by federal depository insurance up to \$250,000. Should the Pool's deposits exceed the insured limits, the balance is covered by collateral held by the bank in accordance with Washington law requiring the depository bank to hold collateral equal to 100% of the excess government funds on deposit.

ORWACA Insurance Agency, LLC, cash is restricted for use by the State of Washington until the premiums are paid to the respective insurance companies. No cash was considered restricted as of December 31, 2024 and 2023.

Restricted cash equivalents are designated for the benefit of The Princeton Excess and Surplus Lines Insurance Company (PESLIC) (see Notes 1 and 6).

Accounts Receivable

Accounts receivable reflects uncollateralized amounts due from members for contributions billed and commissions due from insurance companies. The Pool grants credit to housing authorities, low-income housing tax credit partnerships, and nonprofit corporations in Oregon, Washington, California, and Nevada. Contributions are due from housing authorities and policyholders generally prior to the start of the coverage period. Interest is not charged on delinquent balances. Management individually reviews all delinquent balances and works with the housing authority and policyholder to collect amounts owed. Receivable balances delinquent more than 90 days were \$13,146 and \$64,869 as of December 31, 2024 and 2023, respectively. The Pool did not provide an allowance for doubtful accounts as all accounts are considered collectible.

Unearned Contributions/Prepaid Expenses

Policy period-end varies by policyholder. As such, certain contributions are treated as deferred and certain expenses as prepaid. This is to reflect a proper matching of contributions and expenses for the fiscal year-end financial statements.

Investments

The Pool records its investments at fair value. Changes in fair value are reported as nonoperating income or loss in the statements of revenues, expenses, and changes in net position. Fair value of investments has been determined by the Pool based on quoted market prices. Realized loss on investments sold in 2024 totaled \$45,109. Realized gains on investments sold in 2023 totaled \$247,764.

Restricted Cash Equivalents and Restricted Investments

The Pool has certificates of deposit, federal agency, and corporate bonds totaling \$5,149,823 and \$4,920,473 at December 31, 2024 and 2023, respectively, as designated for the benefit of PESLIC in accordance with a Regulation 114 Trust (see Note 6).

Capital assets and depreciation

Capital assets are carried at cost. Capital purchases exceeding \$10,000 with a determined useful life over one year are capitalized. Depreciation is provided for over the estimated useful lives of the assets using the straight-line method. The useful lives of capital assets are estimated as follows:

Building and improvements	39 years
Furniture and equipment	3–5 years

continues page 29

Losses and Loss Adjustment Expense

Each pool establishes claims liabilities based on estimates of the ultimate cost of claims (including future allocated claim adjustment expense) that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Because actual claims costs depend on such complex factors as inflation, changes in doctrines of legal liability, and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount, particularly for coverages such as general liability.

Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claims frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflect past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claim liabilities are charged or credited to expense in the periods in which they are made.

Net Position

Net position includes the various net earnings from operating income (loss) and nonoperating revenues and expenses. Net position is classified in the following three components:

- *Net Investment in Capital Assets* – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds. At December 31, 2024 and 2023, the Pool did not have any outstanding capital-related debt to apply against its net investment in capital assets.
- *Restricted* – This component of net position consists of constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation reduced by liabilities relating to those restricted assets. At December 31, 2024 and 2023, the Pool did not have any restricted net position.
- *Unrestricted* – This component of net position consists of net position that does not meet the definition of “restricted” or “net investment in capital assets.”

Revenue Recognition

Revenues mainly consist of premium contributions from policyholders. Policyholders are typically those organizations in the affordable housing community, primarily tax credit partnerships, affiliated nonprofits and nonprofit affordable housing owners in Oregon, Washington, Nevada, and California.

Revenue is matched to the period in which the policyholder has obtained coverage. Revenues are amortized over the coverage period.

Contribution development is performed by actuaries and the Board of Directors based on the particular characteristics of the policyholders. Contribution income consists of payments from policyholders that are expected to match the expense of insurance premiums for coverage in excess of self-insured amounts, estimated payments resulting from self-insurance programs, and operating expenses. The contribution revenue is recognized as revenue in the period for which insurance protection is provided.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Tax Status

HARRP is exempt from federal and state income taxes under Internal Revenue Code Section 115. AHRP has been formed as a Limited Liability Company and is taxed as an insurance corporation. The Agency is a Limited Liability Company and wholly owned by AHRP. For tax purposes, the Agency is considered a disregarded entity and its operations are combined with AHRP's on AHRP's income tax return.

AHRP's income tax provision is based on the asset and liability method. Deferred income tax assets and liabilities have been provided for temporary differences between the tax basis of assets and liabilities and their reported amounts in the financial statements.

Management believes the Pool has no material uncertain tax positions and, accordingly, it has not recorded a liability for unrecognized tax expense. To the extent that the Pool was assessed interest or penalties associated with income tax positions, such expense would be recognized as an operating expense.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of all state-sponsored pension plans and additions to/deductions from those plans' fiduciary net position have been determined on the same basis as they are reported by the Washington State Department of Retirement Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Recently Adopted Standards

GASB Statement No. 100, Accounting Changes and Error Corrections – The statement enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This Statement is effective for the Pool in the year ended December 31, 2024, and had no effect on the financial statements for the year ended December 31, 2024.

GASB Statement No. 101, Compensated Absences – The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement is effective for the Pool in the year ended December 31, 2024, and had no material impact on the financial statements for the year ended December 31, 2024. No retroactive adjustment was recorded for December 31, 2023, as it was immaterial to the financial statements. No retroactive adjustment was recorded for December 31, 2023, as it was immaterial to the financial statements.

Note 2 – Investments and Restricted Investments

The Pool had the following investments held in a managed portfolio as of December 31:

	<u>2024</u>	<u>2023</u>
Investment type		
Federal agencies	\$ 22,064,674	\$ 5,752,692
Certificates of deposit	198,076	527,197
Corporate bonds	<u>9,404,483</u>	<u>24,203,288</u>
Total	<u>\$ 31,667,233</u>	<u>\$ 30,483,177</u>

Investments are included on the following totals on the balance sheet:

	<u>2024</u>	<u>2023</u>
Investments	\$ 772,916	\$ 1,337,751
Restricted investments	447,923	56,759
Noncurrent Investments	25,744,494	24,224,953
Non current restricted investments	<u>4,701,900</u>	<u>4,863,714</u>
	<u>\$ 31,667,233</u>	<u>\$ 30,483,177</u>

Interest rate risk – As a means of limiting its exposure to fair value losses arising from changes in interest rates, the Pool’s investment policy limits the investment portfolio to maturities of not more than five years from the date of investment.

Investment Type	Fair Value	Investment Maturities as of December 31, 2024		
		<1 year	1–3 years	>3 years
Federal agencies	\$ 22,064,674	\$ 821,540	\$ 16,079,806	\$ 5,163,328
Certificates of deposit	198,076	198,076	-	-
Corporate bonds	<u>9,404,483</u>	<u>201,223</u>	<u>5,166,677</u>	<u>4,036,583</u>
Total investments at fair value	<u>\$ 31,667,233</u>	<u>\$ 1,220,839</u>	<u>\$ 21,246,483</u>	<u>\$ 9,199,911</u>

Investment Type	Fair Value	Investment Maturities as of December 31, 2023		
		<1 year	1–3 years	>3 years
Federal agencies	\$ 5,752,692	\$ -	\$ 4,346,569	\$ 1,406,123
Certificates of deposit	527,197	336,340	190,857	-
Corporate bonds	<u>24,203,288</u>	<u>1,058,170</u>	<u>13,647,231</u>	<u>9,497,887</u>
Total investments at fair value	<u>\$ 30,483,177</u>	<u>\$ 1,394,510</u>	<u>\$ 18,184,657</u>	<u>\$ 10,904,010</u>

Credit risk – It is the Pool’s general investment policy to apply the prudent person standard; investments shall be made with judgment and care under circumstances then prevailing which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived. Securities eligible for investments are direct obligations of the U.S. Government (U.S. Treasury obligations), U.S. Government agency securities, Corporate Bonds, and Money Market bank accounts. U.S. Treasury obligations are backed by the full faith and credit of the U.S. Government. Government agency securities are rated “AA+” by Standards and Poor’s. Certificates of Deposit are covered by federal depository insurance.

Concentration of risk – The Pool’s investment policy allows for the purchase of unlimited quantities of U.S. Treasury obligations, U.S. Government agency securities, certificates of deposit, or corporate bonds. At December 31, investments grouped in categories that are 5% or more as a percentage of the total investment portfolio were as follows:

	% of Portfolio	
	2024	2023
US Treasuries	60.60%	58.16%
Federal Home Loan Bank	4.01%	17.97%
Corporate bonds	27.03%	21.24%
Federal National Mortgage Association	0.00%	0.00%
Certificates of deposit	0.00%	1.73%
Federal Farm Credit Bank	5.14%	0.90%
Mortgage Backed Securities	3.22%	0.00%

Fair Value Measurement

Investments are measured at fair value on a recurring basis. Recurring fair value measurements are those that GASB statements require or permit in the statements of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset’s fair value.

Level 1 – Inputs are quoted prices in active markets for identical assets.

Level 2 – Inputs are significant other observable inputs.

Level 3 – Inputs are significant unobservable inputs.

Fair values of assets measured on a recurring basis at December 31, 2024, are as follows:

	Level 1	Level 2	Level 3	Total
Federal agencies	\$ -	\$ 22,064,674	\$ -	\$ 22,064,674
Certificates of deposit	-	198,076	-	198,076
Corporate bonds	-	9,404,483	-	9,404,483
	<u>\$ -</u>	<u>\$ 31,667,233</u>	<u>\$ -</u>	<u>\$ 31,667,233</u>

Fair values of assets measured on a recurring basis at December 31, 2023, are as follows:

	Level 1	Level 2	Level 3	Total
Federal agencies	\$ -	\$ 5,752,692	\$ -	\$ 5,752,692
Certificates of deposit	-	527,197	-	527,197
Corporate bonds	-	24,203,288	-	24,203,288
	<u>\$ -</u>	<u>\$ 30,483,177</u>	<u>\$ -</u>	<u>\$ 30,483,177</u>

Note 3 – Capital Assets

Capital assets are as follows for as of December 31, 2023:

	Balance at December 31, 2022	Additions	Retirements	Balance at December 31, 2023
Land	\$ 285,900	\$ -	\$ (285,900)	\$ -
Building and improvements	1,483,738	-	(1,483,738)	-
Furniture and equipment	11,041	-	(11,041)	-
Less depreciation	<u>(546,835)</u>	<u>(3,170)</u>	<u>550,005</u>	<u>-</u>
Net capital assets	<u>\$ 1,233,844</u>	<u>\$ (3,170)</u>	<u>\$ (1,230,674)</u>	<u>\$ -</u>

Depreciation expense was \$0 and \$3,170 for the years ended December 31, 2024 and 2023, respectively.

The Pool sold its land and buildings in 2023 and, as a result, the Pool had no capital assets for the year ended December 31, 2024.

Note 4 – Losses and Loss Adjustment Expenses

The Pool establishes a liability for both reported and unreported insured events at undiscounted amounts, which includes estimates of both future payments of losses and related claims adjustment expenses. The following represents changes in liabilities for the Pool during the years ended December 31:

	<u>2024</u>	<u>2023</u>
Losses and loss adjustment expense reserves, beginning of year	<u>\$ 12,350,488</u>	<u>\$ 10,719,020</u>
Incurring losses and loss adjustment expenses		
Provision for covered events of the current year	12,878,000	13,648,999
Increase in provision for covered events of the prior years *	<u>2,934,563</u>	<u>2,804,114</u>
Total incurred losses and loss adjustment expenses	<u>15,812,563</u>	<u>16,453,113</u>
Payments		
Losses and loss adjustment expenses attributable to covered events of the current year	6,635,551	6,230,761
Losses and loss adjustment expenses attributable to covered events of the prior years *	<u>8,151,871</u>	<u>8,590,884</u>
Total payments	<u>14,787,422</u>	<u>14,821,645</u>
Loss and loss adjustment expense reserves, end of year	<u><u>\$ 13,375,629</u></u>	<u><u>\$ 12,350,488</u></u>
Detail of losses and loss adjustment expense reserves		
Current portion	\$ 9,877,608	\$ 9,258,917
Long-term portion	<u>3,498,021</u>	<u>3,091,571</u>
	<u><u>\$ 13,375,629</u></u>	<u><u>\$ 12,350,488</u></u>

* Claim payments include \$337,372 and \$54,808 of state subrogation payments received during the year ended December 31, 2024 for 2023 for prior year claims.

The change in provision for covered events of the prior year increased significantly due to the unfavorable increase in provision for 2022 property and general liability claims due to flooding and wildfires that were unprecedented in the Pool's history.

Note 5 – Income Taxes

AHRP is taxed as a mutual property/casualty insurance company. Deferred income tax assets result principally from differences between unpaid losses and loss adjustments, unrealized gains and losses, and unearned contributions for financial reporting and tax purposes. Tax expense consists of the following for the years ended December 31:

	<u>2024</u>	<u>2023</u>
Deferred – Federal	\$ 247,369	\$ 24,505
Deferred – State	<u>29,995</u>	<u>14,101</u>
Total deferred	<u>277,364</u>	<u>38,606</u>
Current – Federal	(737,558)	(124,389)
Current – State	<u>(254,446)</u>	<u>(102,870)</u>
Total current	<u>(992,004)</u>	<u>(227,259)</u>
	<u><u>\$ (714,640)</u></u>	<u><u>\$ (188,653)</u></u>

continues page 35

Note 5 continues..
from page 34

The effective tax rate differs from the rate applied to the Pool's increase in net position before income taxes principally due to only AHRP being taxed as a mutual property/casualty insurance corporation.

The components of the deferred income tax asset are as follows as of December 31:

	2024	2023
Unearned contributions	\$ 503,427	\$ 221,812
Unrealized losses	(31,051)	(10,287)
Loss reserve discount	71,841	48,877
State net operating loss	-	13,238
Capital loss disallowed	6,771	1,307
TCJA – loss reserve discounting	(1,307)	(2,630)
	<u>\$ 549,681</u>	<u>\$ 272,317</u>
Net deferred tax asset		

Note 6 – Excess and Reinsurance

The Pool purchases excess insurance and reinsurance to reduce its financial exposure to loss. The Pool does not report any liabilities that are the responsibility of the reinsurance or the excess insurance carrier.

All property and casualty lines for HARRP are self-insured at a level of \$2,000,000 per occurrence. HARRP secured \$45,000,000 of coverage in excess of the underlying \$2,000,000 for property losses through an additional excess insurance policy. HARRP provides coverage for the members' stated total insured value up to the excess coverage limit.

AHRP provides only general liability, property, and tenant discrimination coverage. The general liability coverage for AHRP is self-insured at a level of \$1,000,000 per occurrence. \$1,000,000 of reinsurance has been secured to provide higher limit coverage on both the property and general liability lines. Additionally, AHRP secured \$45,000,000 in excess of the underlying \$2,000,000 for property losses through an additional excess insurance policy.

During December 2017, HARRP and AHRP entered into a Regulation 114 Trust to provide collateral for PESLIC in exchange for fronting the credit risk related to AHRP's reinsurance. The collateral is included in restricted investments consisting of certificates of deposit, federal agencies, and corporate bonds totaling \$5,149,823 and \$4,920,473 at December 31, 2024 and 2023. AHRP is a grantor on the Regulation 114 Trust.

Note 7 – Retirement & Note 8 – Pensions *(Left out intentionally)*

See full audited financial statements for further information.

Note 9 – Subsequent Events

We have evaluated subsequent events through March 20, 2025, the date that these financial statements were available to be issued.

Reconciliation of Claims Liabilities by Type of Coverage (Unaudited)

Years Ended December 31, 2024 and 2023

The schedule below presents the changes in losses and loss adjustment expenses for 2024 and 2023 for the Pool's three types of coverage, property, general and public officials' liability, and automobile liability:

	Property		General and Public Officials' Liability		Automobile Liability		Totals	
	2024	2023	2024	2023	2024	2023	2024	2023
Losses and loss adjustment expense reserves, beginning of year	\$ 7,528,482	\$ 6,524,189	\$ 4,458,980	\$ 3,913,114	\$ 363,027	\$ 281,717	\$ 12,350,488	\$ 10,719,020
Incurring losses and loss adjustment expenses								
Provision for covered events of the current year	10,098,000	11,055,000	2,397,000	2,250,000	383,000	344,000	12,878,000	13,648,999
Increase (decrease) in provision for covered events of the prior years	652,502	1,933,188	1,949,640	718,846	332,421	152,080	2,934,563	2,804,114
Total incurred losses and loss adjustment expenses	10,750,502	12,988,188	4,346,640	2,968,846	715,421	496,080	15,812,563	16,453,113
Payments								
Losses and loss adjustment expenses attributable to covered events of the current year	6,271,862	5,583,649	91,322	413,230	272,367	233,882	6,635,551	6,230,761
Losses and loss adjustment expenses attributable to covered events of the prior years	5,207,902	6,400,246	2,531,065	2,009,750	412,904	180,888	8,151,871	8,590,884
Total payments	11,479,764	11,983,895	2,622,387	2,422,980	685,271	414,770	14,787,422	14,821,645
Losses and loss adjustment expense reserves, end of year	\$ 6,799,220	\$ 7,528,482	\$ 6,183,233	\$ 4,458,980	\$ 393,177	\$ 363,027	\$ 13,375,629	\$ 12,350,488

Ten-Year Loss Development Information (Unaudited)

For the Ten Years Ended December 31, 2024

Ten-Year Loss Development Information (Unaudited)

December 31, 2024

CLAIMS DEVELOPMENT INFORMATION

The schedule illustrates the Pool's earned revenues (net of reinsurance) and investment income (loss) compared to related costs of loss (net of loss assumed by reinsurers) and other expenses assumed by the Pool as of the end of the year.

The rows of the table are defined as follows:

1. This line shows the total of each year's earned contribution revenues and investment revenues.
2. This line shows each year's other operating costs of the Pool including overhead and claims expense not allocable to individual claims. All unallocable administration expenses are charged to the current year.
3. This line shows the Pool's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the year.
4. This section shows the cumulative amounts paid as of the end of the year.
5. This line shows the latest reestimated amount of claims assumed by reinsurers as of the end of the current year for each insured year.
6. This annual reestimation results from new information received on known claims, as well as emergence of new claims not previously known.
7. This line compares the latest reestimated incurred claim amount to the amount originally established (line 3) and shows whether this later estimate of claims cost is greater or less than originally estimated.

As data for individual policy years mature, the correlation between original estimates and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Board of Directors
Housing Authorities Risk Retention Pool

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Housing Authorities Risk Retention Pool (the Pool) as of and for the year ended December 31, 2024, and the related notes to the financial statements, which collectively comprise Housing Authorities Risk Retention Pool basic financial statements, and have issued our report thereon dated March 20, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Housing Authorities Risk Retention Pool's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Housing Authorities Risk Retention Pool's internal control. Accordingly, we do not express an opinion on the effectiveness of Housing Authorities Risk Retention Pool's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Pool's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
